

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart

HOW TO PREPARE A DONOR FOR EYE RECOVERY

STEP 1: Report death to Iowa Donor Network (IDN) through iReferral or via IDN's 24-hour referral line: **800-831-4131**

STEP 2: IDN will evaluate registry status and medical suitability. If recovery is approved, go to step 3.

STEP 3: Prepare the decedent for eye recovery:

- Elevate head
- Place sterile saline into eyes and close lids. You may gently apply paper tape to keep the lids closed if needed
- Place damp washcloth over closed eyes and place ice pack atop washcloth.
- Make sure eye donation is documented in medical chart
